Subject: Notification of Deviations to Pre-Remediation Work Plan  
Extraction, Injection, and Observation Well Installation  
Boeing Realty Corporation, Former C-6 Facility  
19503 South Normandie Avenue  
Los Angeles, California  
SLIC # 410

Dear Ms. Townsend:

On behalf of Boeing Realty Corporation (BRC), Camp Dresser & McKee Inc. (CDM) is submitting this notification of deviations to the Pre-Remediation Work Plan (CDM, February 14, 2006) which was approved by the California Regional Water Quality Control Board - Los Angeles Region (RWQCB) on February 23, 2006 for the above-referenced site. The specific deviations include:

- Two extraction wells (one B-Sand and one C-sand) are proposed in the northern parcel (Lot 8) as shown on Figure 1, instead of the one well (B-Sand only) originally proposed in the Work Plan. In addition, no aquifer testing is planned for Lot 8 as adequate historical data appear to be present. We anticipate that these changes will facilitate the future implementation of groundwater remediation at the parcel.
- Two injection wells are proposed in the southern parcel (Sunrider Property) as shown on Figure 2 in order to replace/augment the existing injection infrastructure due to concerns regarding the effectiveness of the existing infrastructure. In addition, one observation well is also proposed (Figure 2) to allow for groundwater monitoring during the C-Sand aquifer testing.

The proposed start date for the well installation and development is October 17, 2006 with an estimated completion date of November 7, 2006.

Ms. Ana Townsend
